QUAKE SHOCK IS FELT IN INDIANA

Cities in Southern Part of State Re-
port Earth Tremor Shortly Af-
ter 6 A. M. Today

NO SERIOUS DAMAGE DONE

Windows Are Broken and People
Rush to Streets Half-Clad—Not
Recorded at Chicago

(By United Press)
Chicago, Ill., Mar. 14—Officials in
charge of the seismograph at Chi-
cago University said there was no
signs of an earthquake early today
when informed of the report from
the vicinity of Danville Ill., and
Terre Haute, Ind., that heavy trem-
ors were felt at those places.

Indianapolis, Ind., Mar. 14—After
learning of earth tremors today in
Illinois and western Indiana, a few
persons in Indianapolis recalled hav-
ing felt a tremor which shook fur-
niture slightly, shortly after 6 a. m.
J. H. Arrington meteorologist in
charge of the local government weath-
er bureau said that the local bu-
reau is not equipped with a seismo-
graph to record earth shocks. He
had not received any reports of the
quake.

Terre Haute, Ind., Mar. 14—Win-
dows in many private dwellings here
were broken when an earth tremor
was felt here shortly after six o'-
clock this morning. The shock was
felt also at Clinton, Brazil and other
surrounding towns.

People rushed to the streets here,
some being only half-clad. Guests at
the National Hotel ran outside and
persons at the Catholic church here
saw the candles on the altar sway
back and forth.

The only damage reported was the
breaking of windows. No persons
were reported injured or killed.

Rockville, the county seat of
Parke county, directly east of this
city, felt a disturbance distinctly at
the same time as Terre Haute, re-
ports from there say. Following the
shock, which shook houses there was
a rumbling quake described by
many persons in that place as sim-
ilar to a heavy automobile or piece
of machinery passing on the road.

Two distinct shocks were felt
about 6:15 at Brazil, the county
seat of Clay county. It was at first
thought there that the shocks were
due to heavy blasting in coal mines
about Brazil, but the dumbing feel-
ing was not accompanied by any
noise, indicating they were earth
shocks. Residents of Clinton in Ver-
million county were greatly alarmed,
at first fearing there had been an
explosion in a powder mill or coal
mine. The city seemed to rock for
from twenty-five to thirty seconds.

Vincennes, county seat of Knox

RAIL MANAGERS TO SUBMIT TO INQUIRY

Ordered to Appear Before Labor
Board Following Charges of
National "Conspiracy"

APPEAL BY UNION LEADERS

(By United Press)
Chicago, Ill., Mar. 14.—Leaders in
the railroad managers association
were ordered today to appear before
the United States labor board here
on Wednesday and submit to exam-
ination regarding the petitions of
the roads for abrogation of some na-
tional agreements.

The board's action was taken on
the demand of representatives of
railroad unions. Examination of the
executives will show that the peti-
tion made by the railroads for abro-
gation of a national agreement is
part of a great "conspiracy" to force
down wages and reduce working
hours, the union leaders declare.

Frank P. Walsh, attorney for the
unions, in addressing the board de-
clared the packers action in cutting
wages and abolishing the eight hour
basic day was a part of this con-
spiracy.

STATES' CASE TO

Prosecutor Hopes to Finish in Ard-
more Murder Case Today

(By United Press)
Court House, Ardmore, Okla., Mar.
14.—The state's case against Clara
Smith Hamon, on trial for the mur-
der of the millionaire, Jake Hamon,
drew rapidly to a close today. With
the story of the widow, the prose-
cution hoped to close up their test-
imony today.

F. Ketch, \$1,000 a week associate
of Hamon, was the chief witness for
the state today. He stated that Ham-
on told him that the defendant
shot him while reclining on the bed
in the Randol Hotel. "Wild Bill"
McLean made repeated efforts to
shatter his story but did not suc-
ceed.

MEDICINE STUFF DOESN'T GO HERE

Indiana Law Will Not Permit Pos-
session of Intoxicating Liquor
For Any Purpose

FEDERAL RULING TO STAND

Persons who long for the good old
days when it was possible to have a
case in the cellar, with a few bot-
tles cold on ice all the time, are
doomed to disappointment, according
to advices received here, because the
recent ruling of ex-Attorney General
Palmer permitting the unlimited
manufacture of beer, wines and
whiskey for medicinal purposes, will
not apply in Indiana.

The statute in Indiana is very
plain on this subject, it is pointed
out, and makes it unlawful to pos-
sess intoxicating liquor of more than
one-half of one percent alcohol for
any purpose whatever, whether for
medicinal purposes or not.

Outside of the state, however, it
is believed that it will be possible
under the new construction placed
on the Volstead act, or persons to
obtain beer by the case, where it is
alleged to be purchased for medicinal
purposes. This opinion is arrived
at by the logic that a "patient" or-
dering beer for medicinal uses would
be permitted to buy more than one
bottle at a time because it would be
prescribed as a tonic.

PROGRESS OF DRY LEGISLATION SHOWN

Speakers For Indiana Anti-Saloon
League Speak in Rushville Chur-
ches Sunday

NEW DUNN LAW EXPLAINED

The progress of prohibition leg-
islation from the time the agitation
was first started up to the enact-
ment of the Volstead act and the
passage of the Dunn law by the re-
cent Indiana legislature, was out-
lined by Indiana Anti-saloon League
speakers at the observance of their
annual "field day" in local churches
Sunday.

Methods of enforcing the dry
laws were cited and the provisions
of the Dunn law, with which people
are not yet familiar, were also ex-
plained. It was shown that the Dunn
law gives the authorities power to
confiscate any vehicle used for trans-
portation of intoxicating liquor and
to sell it. The proceeds of the sale
shall go to the county school fund,
the law provides. The Dunn law also
does not permit possession of wine
for personal use.

At the law enforcement confer-
ence held in the afternoon at the
First Baptist church, which was open
to the public, the Rev. E. S. Shu-
maker of Indianapolis, superinten-
dent of the Indiana League, pointed
out the powers of the mayor and
prosecuting attorneys in enforcing
the dry laws. He said if a prosecut-
ing attorney proves unwilling to act,
a group of citizens may import a
prosecuting attorney from another
circuit to take charge.

In addition to the Rev. Mr. Shu-
maker, other speakers for the
League were the Rev. J. L. Vallow
and the Rev. C. J. Everson.

Householders May Get Relief From Wandering Chickens

New Law Gives Annoyed Person Au-
thority to Send Notice to Owner
to Keep "Birds" at Home. After
Five Days, Prosecution May be
Started

Among the new laws enacted by
the general assembly lately ended
there are many which the public will
hear about with great interest,
though they have come up to their
passage in the general rush, almost
unnoted. One of these, humble
enough in title, is really important,
and is mentioned here as one for
which the public, city and county,
may as well make ready now, al-
though it contains no emergency
clause and will not become effective
until the new statutes, by proclama-
tion, weeks hence, are thrown all at
once into operation.

This law provides that when poul-
try, whether chickens, turkeys,
ducks, geese, guineas or anything
else classified under that name, shall
stray from the premises of the owner
and trespass upon the premises of
another, the annoyed person may
give the owner notice to keep the
birds at home. This notice must have
five days in which to work. Then on

the sixth, to the new law takes ef-
fect. If the birds are still abroad the
owner is subject to a very stiff fine
—a fine which is more than an ordi-
nary little flock of poultry is worth,
and for second offenses and third
offenses the fine grows heavier at a
rate which nobody is likely to stand.
Summed up, the law makes it neces-
sary that everybody who keeps poul-
try shall actually have to keep it
within bounds and see that it is not
a nuisance to others. The law is
very liberal in its provisions for the
giving of the notice, and surpris-
ingly sharp in the penalties it entails.
It is suspected that a good many of
the members of the assembly—who
passed it with a rush—must at one
time or another have unwillingly en-
tertained orating turkeys, chickens,
ducks, geese, guineas or the like upon
their premises, without any legal re-
course. For as the law was before
poultry might roam at will, and the
only remedy of the aggrieved person
was to bring a damage suit, in which
case actual damage must be shown.

It is really believed that this new
law, homely though it is, is a sound
and sensible one, which will reduce
the petty neighborhood disputes and
back-fence battles in Indiana to a
fraction of their present volume and
violence.

FURTHER ARRESTS ON INDICTMENTS

Four More Bench Warrants Served
Today, Leaving Seven Yet to be
Acted on

ALL PUBLIC INTOXICATION

Paul Spacey is Cited For Contempt
of Court For Failure to Pay Wife
Allowance

Four additional grand jury indict-
ments were served today in the cir-
cuit court, and other arrests were
expected to be made in a day or so.
With the two arrests Saturday and
the four today, and one juvenile in-
dictment, there remains seven more
to be served.

Today two men from Milroy
against whom indictments charging
public intoxication, were returned.
In each instance the Christian name
was not placed in the affidavit and
they were fined upon their last
names, which were Harcourt and
Witters. The fine of \$5 and costs
was assessed against them upon
pleas of guilty.

Robert Conway also pleaded guilty
to the same charge, and received
the same penalty. William Sexton
entered a plea of not guilty and pro-
vided \$50 bond for his appearance.
The date for trial has not been set.

An order has been issued against
Paul Spacey in which he is cited for
contempt of the court. The charge
was preferred by his wife, Ida May
Spacey, who maintains that he has
not provided for an allowance which
was ordered by the court during the
pendency of a divorce action be-
tween the couple. Spacey has been
ordered to appear in court on Thurs-
day morning, and show cause why
he should not be punished for con-
tempt.

FOR FINANCIAL PROGRAM

Conference of Senate and House
Leaders Begins Today

(By United Press)
Washington, Mar. 14.—A program
of financial legislation to run
through the Harding administration
will be prepared at conferences be-
ginning at the capitol today.

These conferences will be attend-
ed by republican members of the
senate finance committee, house
ways and means committee, Repre-
sentative Good, chairman of the
house appropriation committee and
a corps of experts.

INDICATES DEATH WAS NOT ACCIDENT

Bloodstained Bedclothing Found in
Shack After Virgil Decker's
Body is Found

CRIME HINTED AT WARSAW

First Thought Young Man Was
Killed by Train Which Carried
Body Fifty Feet

(By United Press)
Warsaw, Ind., Mar. 14.—Rummag-
ing through a small shack beside a
river and finding bloodstained bed-
clothing, county officials here be-
lieve they have found a clew which
might unravel the mystery surround-
ing the death of Virgil Decker,
twenty years old.

Decker met his death Saturday
night after the Pennsylvania passen-
ger train had carried his body fifty
feet, near Attiwood.

The death was regarded as acci-
dental until late yesterday when it
became known that no horse had
been hitched to the buggy, in which
Decker was riding. The theory was
advanced that Decker had been at-
tacked and his injured body had
been put in the buggy in the path of
the train to give the death an at-
mosphere of being accidental.

Sheriff Moon and the county cor-
oner found some tracks near the
scene of the accident which lead to
the shack near the stream on the
farm owned by Fred Decker, a bro-
ther with whom the dead boy was
living. The clothing found on the
dead body was wet. This fact also
lead the authorities to direct the in-
vestigation toward the shack where
the blood stained bed clothing was
found.

The sheriff stated that Decker was
the owner of three insurance poli-
cies aggregating \$14,000, all having
double indemnities for accidental
death. They were all made payable
to Fred Decker, his brother.

WILL SEEK RENOMINATION

Frank Abercrombie is Candidate For
First Ward Councilman

Frank Abercrombie today an-
nounced his intentions of seeking
the nomination for councilman from
the first ward, subject to the Re-
publican primary election May 3. Mr.
Abercrombie is the second member
of the present administration to an-
nounce himself as a candidate for
re-election, Mr. Mauzy having an-
nounced recently that he would be
a candidate for councilman-at-large.

CANVASS IS STARTED HERE

House-to-House Canvass Made For
Irish Relief Fund

The appeal of the American Com-
mittee for Relief in Ireland was made
by the Rev. Francis Schaub at St.
Mary's Catholic church Sunday and
a house-to-house canvass was also
started by the committee which is in
charge of the campaign here.

Indiana's quota of the national
fund is \$350,000 and Rush county is
expected to raise its proportionate
share of this sum. Good progress
was reported Sunday and it is an-
ticipated that the amount expected
from here will be readily contributed.
Leading citizens of the state and na-
tion are identified with the move-
ment and they are making the ap-
peal from a purely humanitarian
standpoint, without regard to the
questions involved in bringing about
the controversy in Ireland.

FIVE-ACRE CONTEST IS TO BE HERE THIS YEAR

County Agent Announces He is
Ready to Receive Applications
For Annual Competition

SEVERAL MEDALS OFFERED

A five-acre corn-growing contest
will again be staged this year, ac-
cording to an announcement made
today by County Agent D. D. Ball,
who is now ready to receive appli-
cations for memberships in the con-
test. The five-acre tracts proved
very successful in years past and
much interest was displayed last
year throughout the county.

The State Corn Growers associa-
tion has sent word that it will give
prizes this year in the form of me-
dals for contestants who make a
worthy showing. A bronze medal will
be given all who show a 75 to 85 bu.
yield and a silver medal to all con-
testants who show a 85 to 100 bu.
yield.

Any contestant who grows 100 or
more bushels to the acre will be
awarded a gold medal by the state
association. In connection with these
prizes, there also will be cash
awards and a silver loving cup is
given annually by the Peoples Na-
tional Bank to the high point con-
testant.

All those who contemplate enter-
ing the contest, or who wish further
information are requested to consult
with the county agent at once.

PAUL HAYNES QUILTS STATE COMMISSION

Regarded as Certain George Barnard
of Newcastle Will be Appointed
to Succeed Him

M'CRAY TO TAKE VACATION

(By United Press)
Indianapolis, Ind., Mar. 14.—Paul
P. Haynes of Anderson today ten-
dered his resignation as a member
of the public service commission to
Governor McCray. His resignation
will become effective March 31.

Haynes will leave shortly for Mex-
ico City and other places in Mexico
as a representative of an American
syndicate to investigate Mexican
conditions, and upon returning here
he will enter the practice of law. He
will be associated with Carl Mote,
former secretary of the commission.

Governor McCray announced he
would not name the successor to
Haynes until returning from a week's
vacation. The governor will leave
tomorrow on the vacation. It was
generally accepted by those close to
the governor that George Barnard,
attorney of Newcastle, will be ap-
pointed to the post vacated by
Haynes.

ULTIMATUM TO FINNS

Helsingfor, Mar. 14.—A virtual
ultimatum from the Bolsheviks has
been received by the Finnish govern-
ment, it was stated. The Finns were
warned not to communicate with
Kronstadt. A port west of Petro-
grad was said to have been captured
by the rebels Saturday afternoon.

CONCERNED ABOUT WATSON'S HEALTH

Friends Here Fearful Lest He En-
ters Into Strenuous Duties His
Condition Will Not Permit

IN OLD FORM IN 3 MONTHS

Senator Writes That He is Recover-
ing Rapidly—Busy on Patronage
and Tariff Question

That Senator James E. Watson
of this city, who was recently
threatened with a major operation,
is gradually regaining his health, is
the word which has sifted back
from Washington. His friends here,
however, are showing some concern
lest he do more than his condition
of health permits and suffer a re-
lapse.

There are very strenuous times in
Washington just now, especially for
United States senators, and the
fear was expressed today by some
of Senator Watson's close friends
that he might be led to do more work
than his weakened condition will
stand. Senator Watson has written
to some of his friends here that he
expects to be as good as ever phys-
ically within three months, but they
are dubious of this if he digs into
his work with his old time vigor.

Aside from assisting in the dis-
tribution of federal patronage, Sen-
ator Watson is also in the tempest
created by the argument as to whe-
ther the emergency tariff bill or the
revision of the federal taxation sys-
tem shall be taken up first by the
special session of congress which is
scheduled to open April 4.

Today's dispatches from Wash-
ington confirmed the recent reports
that Senator Watson has selected
the internal revenue collector and
the United States marshal for In-
diana and the question of picking
the federal prohibition enforcement
officer and the United States district
attorney was left to Senator Harry
S. New. It was announced in a Wa-
shington dispatch today that Burt
Morgan of Greensburg, republican
chairman of the fourth district, had
been selected by Senator New to
succeed Charles J. Orbison, prohibi-
tion officer, and that the appoint-
ment as district attorney had been
offered to a leading attorney of the
state. Senator Watson had previous-
ly stated that M. Bert Thurman of
New Albany had been selected for
the internal revenue job and Linus P.

SIX SINN FEINERS ARE EXECUTED TODAY

Half Dozen Irishmen Accused of Of-
fenses Against Crown Meet
Death Protesting Innocence

PRECAUTIONS ARE TAKEN

(By United Press)
Dublin, Ireland, Mar. 4.—Six Sinn
Feiners were executed in Mount Joy
prison today while many persons
knelt in prayer outside the prison
walls.

The condemned men were lead in
pairs to their death at hourly inter-
vals. All met their fate coolly and
seemingly happy. Elaborate precau-
tions were taken to prevent any dis-
turbances in the city. Extra guards
were mounted. All public works were
stopped. Telegraph offices and post-
offices were closed until noon. Man-
agers of private industries were
forced to suspend their business for
the employees to flock to the prison
gates.

Large crowds gathered at the pris-
on gates and at the first ring of
the prison bell the thousands of peo-
ple dropped to their knees murning
prayers.

Thomas Helley and Patrick Mor-
an, condemned to death for partici-
pating in the Cork "Bloody Sunday"
outrages, protested to the last of
their innocence. Ben Bryan, Patrick
Dager, Thomas Ryan and Frank
Flood, who were taken during an
ambush on crowned forces early in
the year, also claimed to be inno-
cent.

Personal Points

—Owen L. Carr transacted business this afternoon in Indianapolis.

—John A. Tittsworth was in Indianapolis this afternoon on business.

—William Newlin of Carthage was in Rushville today on business.

—Mrs. Charles J. Caron was among the passengers this morning in Indianapolis.

—Chase Saddler and Frank Inniss left Saturday and Sunday in Indianapolis the guests of friends.

—Mrs. D. H. Dean has gone to Indianapolis for a few days visit with her daughter, Miss Janet Dean, who is attending school in that city. They will attend the recital tonight at the Murat theater, when Fritz Reiser, violinist, will play.

RED MEN TO MEET

Tanpah Tribe 102, Red Men, will meet Tuesday night at 7:30 o'clock in the hall, at which time work in the Hunters' and Warriors' degree will be given. All members are urged to be present.

MASONIC DEGREE WORK

Phoenix lodge No. 62, F. & A. M. will have work in the M. M. degree Tuesday evening beginning at 7:30. Visiting Masons are welcome.

The Psi Iota Xi sorority will hold rummage sale next Saturday either Holt's grocery store in East Second street or in Foley's plumbing shop in North Morgan street. The exact place will be announced later.

How Glasses Preserve One's Youthful Appearance

It is often urged that glasses will make the wearer look old, but, as a matter of fact, wearing glasses is one of the best preservers of a youthful appearance.

This is because prolonged eyestrain causes wrinkles and "crow's feet" to appear prematurely and gives the countenance a strained, tired, drawn cross look which is far more to be avoided from a point of view of appearance, than from any real or fancied disfigurement caused by glasses.

We use particular care in fitting glasses and in the selection of mountings most becoming to each person's individual style of beauty.

STREAM POLLUTION CAMPAIGN LAUNCHED

State Conservation Department Begins Task to Prevent Cities From Dumping Waste Into Rivers

DESTROYS AQUATIC LIFE

Indianapolis, Ind. Mar. 14—The state department of conservation today launched a campaign against the practice of cities and factories in dumping their waste into streams and lakes of Indiana.

"Our streams should be and are a source of constant food supply and great health resorts", said a bulletin issued by the department in connection with its campaign.

"Waste dumped into streams does not only kill fish and other aquatic life by direct poisoning. It may possess a component which removes the oxygen from the water, rendering it inhabitable to aquatic life. It may destroy the millions of bugs and worms and floating plants which constitute the food for fish.

"The best method pursued is the treatment to remove dangerous elements so that the offal may be sent into a river or lake harmless. The chief problem confronting the commission is the question of economy and how this method may be applied without causing hardship on either the manufacturers or the cities".

The department has made previous drives against the pollution of streams and lakes by the manufacturers of strawboard.

KEEP WHITE GRUBS OUT OF THE CORN

Severe Injury May Result to Corn Crop This Year From Pest Which Makes Visit Every 3 Years

FEW SUGGESTIONS OFFERED

Washington, Mar. 14—Severe injury from white grubs is to be expected this season throughout southern New York, northern Pennsylvania, northern Ohio, the southern half of Michigan, northern Indiana and Illinois, eastern Iowa, and southern Wisconsin. Every three years these regions are visited with outbreaks of this pest, because of the fact that it takes three years for the insects to pass through their complete life cycle. There will be an abundance of small grubs this year of what is known to entomologists as "Brood A" of the white grub. They will occur especially in fields that were in grass last year, and for this reason throughout the regions mentioned neither corn nor potatoes should be planted on such land. Because these crops will almost surely be severely injured if this be done. Ground that was in pure clover or even in corn last year is likely to be quite safe for planting to corn this year, because the beetles which are the parents of the white grubs do not usually lay their eggs in such crops. A good rotation of crops to escape white-grub injury is as follows: First year, oats or barley; second year, clover; third year, corn. Timothy or other grasses harbor white grubs from year to year, and, therefore, in case they are grown, the land producing them should not be planted to corn, at least for the first year after it is broken from the sod.

Farmers' Bulletin 940 contains full information on white grubs and may be obtained free on application to the United States Department of Agriculture.

CHICAGO MAN INVENTS ASTRONOMICAL CLOCK

Chicago, March 14—Michael Bulka of Chicago has invented a remarkable astronomical clock which has attracted much scientific interest.

In a glass dome on top are a miniature sun, earth and moon whose movements duplicate those of these bodies in the heavens. The sun remains stationary, but the earth turns on its axis, the moon revolves around the earth and both planets circle the sun. The globes representing the sun and moon are coated with phosphorus and show the nights and days and the various phases of the earth's satellite. Eclipses of the sun and moon are clearly indicated.

The amazing thing about it is that the earth revolves every twenty-four hours and the earth and moon take twelve months to complete their circle about the sun while marking off the four seasons. While these planetary movements are visible, a dial on the face of the clock records the changes in days, weeks, months and years.

SEE OVR BIG DOLLAR DAY ATTRACTIONS

An Array of Values that is Really Astonishing

Wednesday, March 16th

We are glad to announce another Dollar Day, which proved so successful to everyone last month. Coming just in time for Easter, this announcement will bring many of our friends, who have waited until the last few days to the store of certain satisfaction.

You will find listed below only a few specials but a trip to our store will disclose hundreds of specials for one dollar which can not be duplicated in the state today.

You know how many people we made happy last dollar day, so come in and look around —you'll find just what you want at the price you want to pay.

A Few of Our \$1 Day Specials

New Spring Dress Gingham

All beautiful Patterns and excellent quality

\$ Day — 6 Yards for \$1.00

75c Values Turkish Towels

Standard Quality — Full Size

\$ Day — 3 for \$1.00

QUAKE SHOCK IS FELT IN INDIANA

Continued from Page One

county, situated fifty-five miles south of Terre Haute near the Illinois-Indiana line, reported that window panes were rattled there by the tremors. They were plainly felt by residents, it was said. Nearby villages and towns also reported that the shock was felt.

Slight tremors were felt soon after 6 o'clock by early risers in Crawfordsville. The first tremor seemed to be more distinct than the second, which followed shortly afterward. Many thought at first that the shocks were caused by blasts in salt pits at brick plants near Crawfordsville.

Both Danville and Paris, Ill., reported feeling the quake, together with other towns and villages in that region. In Danville a dispatch said that there was one severe tremor, followed by several minor ones. Paris messages said the shock was distinct in that city. The tremors, residents said, seemed to travel from the east and were preceded by a rumbling noise, resembling distant thunder. Some buildings quivered and the occupants of homes, lightly clad, rushed into the streets, believing their houses were falling. The principal shock lasted about two seconds.

WEATHER FOR THE WEEK

Washington, Mar. 14.—Cold and unsettled weather, with occasional rains and snows, is indicated for the week in the Ohio valley.

MRS. PAULINE O. FIELD

Mrs. Pauline O. Field, only woman member of the New York Criminal Bar association, who has been elected president of that organization.

CONCERNED ABOUT WATSON'S HEALTH

Continued from Page One

Meredith of Richmond for the marshaling.

Bert Tucker Washington correspondent of the Indianapolis Star, says that Senator Watson, who is regarded as Senator Penrose's closest friend, is opposed to taking up the tariff first. He also opposes the adoption of any emergency tariff. He is working hard among senators with the view of having revision of taxes taken up first.

Moreover, he says that any revision of the tariff is disturbing to the country. "I do not believe we should attempt a temporary tariff revision" he said today.

"It would be much better to wait awhile and to revise the tariff along scientific lines. In fact I think it would be the height of folly to try to put through two tariff bills and two taxation revision measures".

Senator Watson will take this position at the meeting with Secretary Mellon Monday. The President has not indicated definitely which course he favors although it is said that he believed for awhile that tariff should come first. The Republican leaders in Washington are asserting that a new law similar to the Payne-Aldrich measure will hold business immediately but at the same time they concede that there must be no unnecessary delay in revising and lowering the income tax.

SOCIETY

The War Mothers will meet Wednesday afternoon at two o'clock in the assembly room of the court house. All the members are requested to be present.

Mrs. Donald Smith will be hostess for the members of the Shakespeare club Tuesday evening at her home in North Harrison street. All the members are urged to be present.

The Progressive Boosters class of the First Baptist church will hold a pitch-in supper Wednesday night at seven o'clock in the basement of the church. All members are invited to attend.

The Ladies Aid Society of the First Baptist church will have an all day meeting and pitch-in dinner Thursday at the home of Mrs. Robert Stewart in West Fifth street. All the ladies are urged to attend prepared to work.

Mother's Cook Book

To know how to be ready, we must be able to finish. Nothing done but what is finished. The things which we leave each dragging behind us will start up again later on before us and harass our path.—Henry Amiel.

DESSERTS FOR OCCASIONS.

THE desserts we have every day become monotonous, so we welcome a change even if the preparation takes more time, the product is worth it.

Baked Apple Tarts.

Make flaky pastry by using cupful lard, scant half cupful boiling water. Mix and when well blended add three cupfuls of flour and a teaspoonful of salt. Chill the pastry and meanwhile core and peel enough apples to serve the family. Cook them until tender in a sirup made by boiling one cupful each of sugar and water together. When tender remove the apples to a dish. The apples should be tender but keeping their shape. Roll the chilled pastry in a thin sheet and cut in rounds to nearly cover the apples. Cut out small triangles in the rounds and wet the edge, wrap the apple in the rounds and cover with a cap of pastry two inches in diameter. Brush the top with cold water before adjusting the cap, dredge with sugar and bake until the crust is brown. Serve with a spoonful of hard sauce piped on the top of each and pass the sauce left from the sirup in which the apples were cooked.

Chestnut Apple Amber.

Boil up one cupful of milk with the thinly shaved rind of half a lemon and pour it over two tablespoonfuls of bread crumbs. Remove rind. Beat to a cream the yolks of two eggs with one-quarter of a cupful of sugar and three tablespoonfuls of butter; to this add a quarter of a cupful each of chestnut puree and apple puree. Mix well, add the strained juice of half a lemon and pour into a well buttered pudding dish, the edges of which have been lined with rounds of paste. Bake until firm in a moderate oven. Allow to cool, then cover with a meringue using the whites of two eggs, and two tablespoonfuls of sugar. Dredge with sugar, decorate with candied cherries and return to the oven to brown.

Butterscotch Pudding.

Melt one cupful of brown sugar and two tablespoonfuls of butter until brown but not burned; pour over the mixture two cupfuls of boiling milk and simmer until the sugar is dissolved. Meanwhile soak a thick slice of bread in cold water until soft, press all the water from it and beat in the yolks of two eggs, a pinch of salt and a scant teaspoonful of vanilla. Pour into a buttered baking dish and bake in a pan of water for forty-five minutes. Beat the whites of the eggs until stiff, add two tablespoonfuls of powdered sugar and the juice of half a lemon; beat again, spread over the pudding and brown in a moderate oven. Serve hot or cold.

Date Jelly.

Take envelope of gelatin, cupful of cold water, mix and soak for a few minutes, then add two cupfuls of boiling water, three-fourths of a cupful of sugar; one-half cupful of lemon juice and a package of pitted dates. Turn into a mold first dipped into cold water, and chill. Serve with plain or whipped cream.

Nellie Maxwell
(© 1921, Western Newspaper Union.)

IMMUNE.

Phil Parsnip: How is it Mr. Egg don't wear an overcoat these frosty mornings? Chas. Carrot: He has been kept on cold storage for a year or so; that's why.

The Woman's Missionary Society of the First Presbyterian church will be entertained Tuesday afternoon promptly at 2:30 o'clock at the home of Mrs. John Wallace in West Third street. All the ladies of the society are urgently requested to attend this meeting as this is the first of the new year.

Mrs. Willard Amos will be hostess for the members of the D. A. R. Thursday afternoon instead of Wednesday afternoon, as announced Saturday, at her home in North Perkins street. A St. Patrick's Day program will be given and all the members of the organization are cordially invited to attend.

Ebert Meyer delightfully entertained a number of his friends yesterday at his home in North Arthur street, honoring Leonard Moore who will leave soon to enter State Normal College, Terre Haute, Ind. Carnations centered the table and covers were laid for the honored guest, Clay Carmichael, Paul Stewart, William Vance and Ebert Meyer.

Mrs. Theodore Abercrombie will be hostess for the members of the Loyal Daughters class of the Main Street Christian Sunday school tomorrow night at her home in North Perkins street. At St. Patrick's program will be given and all members of the class are invited to attend. The assisting hostesses will be Miss Cornelia Schrieber, Mrs. Russell Barringer and Mrs. Gibson Ross.

Mr. and Mrs. Frank Sample entertained yesterday at their home in North Morgan street with a prettily appointed dinner party, honoring Mr. and Mrs. Ray Sample, who were recently married. The table was prettily adorned with pink candles and a large French basket of sweet peas centered the table. Covers were laid for the honored guests and Mr. and Mrs. Sam Mahin, Mary Mahin and Fred Mahin.

The R. C. S. club was delightfully entertained Friday evening at the home of Mr. and Mrs. Harry Armstrong in West Fourth street. The home was artistically decorated in keeping with the St. Patrick spirit and an interesting program was given. A humorous debate was given by Mrs. Walter Norris and Mrs. Charles Newhouse which resulted in a tie. Current events closed the program. Delicious refreshments were served during the social hour.

On Wednesday evening a men's dinner dance will be given in the Social Club rooms in North Morgan street. The committee on arrangements consists of Gunn Haydon, Larry Clark and Walter Hubbard. The Ki Barber orchestra of Indianapolis, consisting of six pieces, will furnish music for the dance. In addition to the four musicians who have appeared in this city this season, there will be a banjo player and singer, and slide trombone player.

Master Denzil Byrd entertained a number of his friends at his home west of the city Saturday evening, honoring his ninth birthday. Those who enjoyed the afternoon were Mildred Hungerford, Deloris Hasty, Marjorie Moore, Pearl and Ruby Linville, Thelma and Mildred Hartwell, Bertha and Augusta Stephens, Marciel Byrd, Walter Martin, Earl Treadway, Owen Guise, Paul Wagoner and Ollie Clevenger. At the close of the party dainty refreshments were served.

Earl Hall was delightfully surprised Thursday evening by a few of his friends. The affair was in honor of his sixteenth birthday. The guests were Ray Foster, William Prickrel, Arthur Ellison, Arthur Kemple, Roy Kennedy, Herschel Bates, Vonnice Wright and Carl Wright, Blanche Young, Ruth Casey, Mary Bates, Lillian Culbertson, Flossie Kennedy, Vera Houchins, Mildred Newbold, Fern Ormes, Mattie Bates, Minnie Bates, Mildred Leter and Mr. and Mrs. William Wright and children Laura Bell and Esther.

Mr. and Mrs. Charles Osman entertained a number of their friends last Friday evening at their home in West First street, honoring their twentieth wedding anniversary. The home was beautifully decorated for the occasion and those who participated in the delightful affair were members of the Wednesday afternoon club and invited guests. Mr. and Mrs. Lewis Coates, of Grand Rapids, Mich., parents of Mrs. Osman, were the only out-of-town

guests present. Delicious refreshments were served at the close of the evening.

21-YEAR-OLD MUNCIE YOUTH NAVAL CAPTAIN

Muncie, Ind., Mar. 14.—Dennis Holladay, 21-year-old Muncie lad, has the unique distinction of being the captain and crew of a United States naval vessel at Philadelphia.

Although rated as only a seaman, young Holladay is the mate, the boy's and every other part of the crew of the U. S. Fearless, which tugs at her moorings in Philadelphia harbor.

The vessel was one of the Lewes fishing fleet commanded by the government in the early days of the war and transformed into a minesweeper. For two years she has been tied up in the wharf of the Philadelphia navy yard and since February 1 of last year, Holladay has had general charge and has performed all the duties.

The Fearless is pretty badly run down and all efforts of the navy department to sell her have been futile. Regulations require that she be manned by a crew—and that's Holladay. Whenever the old boat springs a leak, it is up to the Muncie boy to turn to the pump. He has become handy with the broom and tools with which he makes minor repairs.

"Life's not so bad", the youthful mariner mused philosophically, "if you get used to being alone. Enough to do around the old packet, keeping her up after a fashion, to keep you busy these days and being commanding officer, I give myself liberty whenever I want to go ashore of an evening.

"Eat, Oh, yes, I show regular and hearty. Now that I'm my own cook I mess over at the sub base across the channel. Time was when I had my own boat and would sail over, but somebody got away with it and now I have to walk."

The pearl is a disease of the oyster.

PLAN TO REORGANIZE ON EFFICIENT BASIS

Harding Directs Cabinet Members to Prepare Suggestions For The Executive Departments

MANY PLANS ARE OFFERED

(By United Press)

Washington, Mar. 14.—President Harding has directed all the members of his cabinet to prepare suggestions for reorganizing of the executive department on a more efficient basis, it was learned here today. Scores of indefinite ideas already have reached Harding and he is passing them to his cabinet members for careful study.

The cabinet members are to prepare as quickly as possible and proceed to the congressional committee on re-organization which is working on a bill to revamp the executive machinery.

One of the most disputed questions before the cabinet is the creation of a department of public welfare. President Harding declared for such a department in his campaign speeches and it is understood was to be headed by a woman.

The sweeping reshifting of subordinate bureaus so as to make co-operation more logical was the main object of the proposed reorganization.

When the cabinet members accepted their posts they pledged themselves to accept without protest any shift determined upon.

SAYS SCHOOL CHILDREN * OF EAST ARE SNOBBISH *

Evansville, Ind., Mar. 14.—Returning here from the convention of the department of superintendents of the National Educational Association at Atlantic City, Superintendent Benet of the Evansville schools declared he observed that the private schools of the east are breeding an atmosphere of snobbery.

Schools of the middle west have one advantage over those of the east, he said, because the children of "the best families" in the middle west are sent to public schools while those of the east attend private schools.

CUT IN WAGES ACCEPTED

Employees of Packing Plants go to Work as Usual Today

Chicago, Ill., Mar. 14.—The employees of the packing plants went to work stoically and without disturbance today with a 12½ percent cut in wages and a change in hours of work, awaiting the packers' agreement to go in effect.

They agreed to remain at their jobs until the result of the strike vote taken on the question is seen or a settlement by arbitration is made. Two representatives of the unions and two of the packers will meet government officials in Washington this week to make some kind of an agreement.

Every Time You Eat

You realize the importance of buying the right kind of groceries. Quality is our specialty; it costs us a little more and we have to meet the prices of other dealers, but we find from experience that it pays in the long run.

Intelligent Buying for the Home

The cost-of-living problem has been studied by some able people. One of them said: "What every American home needs most is intelligent buying."

Wise buying saves money. A well spent dollar always brings more than if carelessly spent.

The one great help to intelligent buying is information. This is best obtained by reading the advertisements in your newspaper. Reading advertisements gives you knowledge of what is new and good. It keeps you posted as to values. It enables you to plan your expenditures wisely and make your purchases to best advantage.

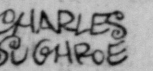

There are two great reasons for this. Advertised

goods are almost invariably dependable. They are good value or it would not pay to advertise them.

Merchants and manufacturers who put these advertisements in the paper are progressive and want to give good values. They know that advertising, by increasing the number of sales, will lower prices and give you more for your money.

Whether your buying is large or small, buy intelligently. Read the advertisements in this newspaper for the necessary information.

INSECURITY IS CAUSE OF UNREST

Noted Economist Asserts That The American Workman Will Not be Troublesome With a Job

IDLENESS CAUSES UNREST

Wisconsin Has Bill in Which Employment is Assured Laborers Who Stick to Their Jobs

Madison, Wis., Mar. 14—"Guaranteed a job, the American workman will not be troublesome."

"The feeling of insecurity as to the permanency of the job is the principal cause of labor unrest."

This in brief summarizes the opinion of Professor John R. Commons, noted economist of the University of Wisconsin.

The state of Wisconsin has been asked to incorporate Professor Commons' views in a law. A bill is now pending in the legislature, written under Professor Commons' direction, which insures workmen compensation in case of loss of employment.

The bill is generally known as an unemployment insurance measure but its primary purpose is to guarantee the workman his job.

The fate of the bill cannot be foretold. The measure accepts the sweeping principle that the liability for unemployment rests solely upon the employer. The state, under the provisions of the bill, operates free employment offices and assists employers in finding jobs for men dropped from their payrolls. Until such jobs are found employers must pay idle workmen and women \$1.50 per day for each day of idleness and 75 cents a day for employees under the age of 18 years.

Workmen must have worked for one or more employers six months before they are entitled to compensation. They must be capable available for employment and unable to obtain suitable jobs. No employee is required to work where there is a lock-out or strike. Non-employment insurance begins the third day after the loss of a job and must be paid weekly.

The bill does not apply to farmers, canning factories, state, cities, towns, villages and school districts. Private employers working less than three men are also exempted. Employees having private incomes in excess of \$500 annually are excluded.

Employers are required to insure payments of liabilities in a mutual insurance company, under the control of the Compensation Insurance Bond. Employers are barred from deducting insurance premiums from the pay of employees. Neither can employers and employees make a valid agreement to waive liabilities.

Employees cannot obtain compensation for more than thirteen weeks in any one year.

JAP PRINCE WILL NOT COME TO THIS COUNTRY

Hirohito However Will Visit Great Britain, France, Italy and Belgium—No Political Significance

TO EXCHANGE COURTESIES

(By United Press)
Washington, Mar. 14—There is a feeling of regret in Japanese diplomatic circles here that Crown Prince Hirohito of Japan has decided not to come to the United States in connection with his forthcoming visit to European countries.

A visit of the Crown Prince to the United States and an official exchange of courtesies with President Harding, who then will be the chief executive, and other American government leaders would go far towards clearing up present difficulties, between the two countries, it is believed. The young Crown Prince, who is only twenty, has the fundamentals of a world statesman, his admirers declare.

Crown Prince Hirohito will leave Japan for Great Britain the first European country to be visited on March 13, it was announced by the Japanese Embassy here. He and his party will sail for Europe on two Japanese cruisers, one of which was built in Great Britain, going west by way of the Indian ocean. The Prince also is said to plan to visit France, Italy and Belgium. He will exchange courtesies with the rulers of these four countries and make a study of post-war conditions. The Prince's visit is said, however, to have no political significance.

Accompanying the Crown Prince will be another royal Japanese

prince, Prince Kanin, each will have their own official party. In the Crown Prince's party will be Viscount Chinda, former Japanese ambassador to Great Britain, and Mr. Saionji, Jr., son of Marquis Saionji, who was chief of the Japanese mission to the Paris Peace Conference.

Amusements

Mildred Harris Chaplin Here
Mildred Harris Chaplin is at the Princess theatre today in "Old Dad" which will be the offering again tomorrow. Burton Holmes Travels will also be shown.

Walter Easley, manager of the Princess, announced today that he had succeeded in contracting the Sax-o-land Four for the last three days of the week. The troupe is com-

posed of four saxophone players who have been appearing in Indianapolis and elsewhere in the state and come with a good reputation as a vaudeville act. They will give a program at each show, matinee and night, in addition to the usual pictures.

A Double Exposure

A new and startling use of double exposure is shown in "The Branded Soul", the Stoll film adaptation of a Rita novel which may be seen at the Mystic Theatre beginning today and Tuesday. Reginald Fox, the star, plays the role of twin brothers in the picture.

Among the many wonders exhibited are scenes in which one brother puts his arm about the other's neck in which the two struggle, and others in which the action is rapid and changes from side to side of the film. This has never been done before, and has aroused a storm of speculation

among those who have attended private showings of the production.

The secret rests with the producer and director, F. Martin Thornton, who has pledged all his studio associates to guard the mystery. Much of the powerful effect of the double exposed scenes is due to Reginald Fox, whose work is marked by versatility, distinctness of characterization, and naturalness. Madge Stuart, as the girl who brings disaster into the lives of both brothers, then happiness to one, makes the most of the fine emotional opportunities offered her.

BABY BOY IS BORN

A baby boy was born Saturday night to the wife of Carl McWilliams, of North Aruthur street. The baby weighed nine pounds and has been named Carl Eugene. Mrs. McWilliams was formerly Miss Ruth Smyth.

LOCAL LODGE WILL BE HOST

Rushville Odd Fellows Will Entertain Milroy Wednesday

Franklin Lodge No. 35 I. O. O. F. will be host to Milroy Lodge No. 654 next Wednesday evening when they confer the first degree on a class of candidates for the latter lodge, and two candidates of Franklin lodge. The work will be put on in spectacular form with orchestral accompaniment of eight pieces.

A large class is being organized to be initiated April 6. The degree staff of Greensburg has been invited to give the first degree on that class on April 13, at which time a rousing meeting is being arranged. The members are being urged to attend all meetings and assist in the entertainment of the visiting members.

* Nine Years of Misfortune * Enough to Get Mans Goat *

Bluffton, Ind., March 14—Reuben Miller is down hearted for the first time in nine years of continuous misfortune. With enough accidents and sickness in his family to make a grocer of the most cheery optimist, Miller has through the late years always worn a smile.

But the smile faded when he underwent an operation for amputation of his right foot. The bone in his foot had decayed and it was necessary for physicians to "use the knife" just above his ankle.

Besides the sickness and accidents to other members of his family, Miller has during the past nine years suffered two fractures to his left wrist, fractured two ribs, his left pelvis, his left leg and mashed a toe. He said he didn't have time to become sick.

THAT BAD BACK

Do you have a dull, steady ache in the small of the back—sharp, stabbing twinges when stooping or lifting—distressing urinary disorders? For bad back and weakened kidneys—Rushville residents recommend Doan's Kidney Pills. Ask your neighbor! Read this Rushville woman's statement.

Mrs. Will Stout, Cor. N. Oliver & 10th Sts. says: "I can certainly say a good word for Doan's Kidney Pills for they have done wonders for me when I have used them. I was suffering with my back which was very lame and sore. When I did any lifting or stooping, sharp pains would catch me in the small of my back. My kidneys felt dull and they were too free in action. I heard of Doan's Kidney Pills and got a box. They rid me of the trouble in a short time."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Stout had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

GOVERNOR SIGNS "BLUE SKY" LAW

Promoters of "Wild Cat" Schemes Will Receive New Jolt by Passage of Amendments

MANY SECTIONS DIFFERENT

18 of 22 Sections of Law Have Been Changed, Making The Act More Stringent on Violators

(By United Press)

Indianapolis, Ind., Mar. 14—Promoters of Louisiana "development companies" whose properties are covered by five feet of Mississippi river water and suave salesmen who have described the fortunes to be made from Texas oil wells which never existed except on official looking maps, received a new jolt when Governor McCray signed the amendments to the Indiana "blue sky" law, a member of the securities commission which administers the law declared today.

Eighteen of twenty-two sections of the original law enacted at the special legislature last summer are changed in the amendments. The bill passed both houses of the legislature without a single dissenting vote.

The securities commission, consisting of the secretary of state, treasurer of state and attorney general and the commission's administrative departments is now free to admit the original law was "very ineffective," it was said, and that "the law has been administered thus far by mere moral force and little else." The original law contained only one penalty and the construction was such that application of even this penalty was extremely difficult if not impossible. Confronted with this weakness, the administrative department has, it now admits, been "merely bluffing."

"Heretofore," said Maurice Mendenhall, chief of this department "there has been a great deal of barking and little biting. Hereafter, there will be more biting and not so much barking."

Real teeth are put in the law through the new amendments. Penalties of fines ranging from \$1,000 to \$10,000 and imprisonment of one year are provided. The moral force of these provisions alone it was pointed out, will keep many promoters of "blue sky" securities out of the state.

Among the other important provisions of the amendments are the following:

Regulation of the amount of promotion stock and other stocks issued for intangible assets ordinarily known as "water."

Provisions for investigating physical assets of applicant companies. Adequate provision for prosecution of law violators.

Increased fees in order that the administrative department may be self sustaining.

The amendments also re-word and reconstruct practically every section of the old law so as to make the enactment workable and "plug up the holes."

Authorities on "blue sky" legislation who have seen the new Indiana law say it is one of the best in the country. A commission appointed by Vice-President Calvin Coolidge, former governor of Massachusetts to investigate the regulatory measures of the United States and England recommended a law virtually identical with the new Indiana law. These recommendations were made only a few weeks ago two months after the new amendments to the Indiana law had been drafted by Mendenhall assisted by H. B. Gray, first assistant in the administrative department.

DRIVE AWAY HEADACHE

Rub Musterole on Forehead and Temples

A headache remedy without the dangers of "headache medicine." Relieves headache and that miserable feeling from colds or congestion. And it acts at once! Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister. Used only externally, and in no way can it affect stomach and heart, as some internal medicines do.

Excellent for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, all pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia).

AUSTRIAN BANKS ARE FOREIGNIZED

American, French, English, Swiss and Other Outside Capitals Take Large Interest Therein

PROCESS HAS THREE FORMS

American General Electric Was Outfit Presenting The Bulk of New Capital

By CARL D. GROAT (U. P. Staff Correspondent)

Berlin, (By Mail)—Austrian industry and banking is being foreignized. American, French, English, Swiss and other outside capital are taking large interest therein. This is true, to a lesser extent, of German industry.

In Austria, the process of foreignizing business takes three forms, according to Vienna advices, namely 1—conversion of a foreign branch of a concern into the main office and leaving the Austrian offices as branches, the capital at the same time being converted into that of the main office; 2—allowing concern to majority of its stock held by outsiders; 3—infusion of foreign capital to increase the capital stock, but without giving the foreigner the controlling hand.

An instance of the first kind is that of the Laenderbank which has been converted into a French establishment converted into a French franchise, leaving its Vienna offices as "branches."

In the second category falls the Italian purchases in the Alpine iron concern. While the concern remains nominally Austrian—that is it stays

in the country—its stock is controlled by Italians. In this connection, it is interesting to note that the purchases thus made prevented the impending socialization of the concern.

As the third procedure, which has occurred in many instances, it may be cited that the Guaranty Trust Company and another American concern made investments of 40,000,000 crowns in the Oesterreichische Kreditanstalt, one of the oldest banks of Austria, which found itself

compelled to increase its capital extensively.

In Germany, one of the most notable cases of capital increase, in which foreign capital participated, is that of the German General Electric Company. It is understood that the American General Electric was the outfit presenting the bulk of the new capital sought some months ago, but it was distinctly stipulated that the German corporation would remain German and avoid foreign control of the majority stock.

INDIANA NOW HAS 228 CATTLE HERDS

127 Are Dairy Cattle and 101 Beef Breeds Entirely Free From Tuberculosis

U. S. INSPECTOR REPORTS

In Addition to Those There Are 2,346 Herds Under Government Supervision

Lafayette, Ind., Mar. 14.—Indiana now has 228 herds of cattle, 127 dairy and 101 of the beef breeds free from tuberculosis or are on the accredited herd list, according to a letter received from Dr. E. B. Haskin, inspector in charge of this work for the U. S. Department of Agriculture, by Prof. H. W. Gregory, head of the dairy department of Purdue University.

In addition, Dr. Haskin reports that the federal and state veterinarians, with whom the university is co-operating through its various extension agencies, have 2,346 herds under supervision at this time, 1,527 of these being dairy herds. Of the number under supervision, 1,385 of which 1,119 are dairy herds have passed one clean test, that is no tubercular animals have been found the first time the herd has been tested.

The accredited herd plan, which means a tuberculosis-free herd, works as follows: An agreement is signed by the farmer, dairyman or stockman that he will comply with all sanitary regulations in future management of his herd. This statement is sent to the state veterinarian, who in turn sends a veterinarian to make the test.

After taking the temperatures of all animals in the herd, the tuberculin is injected under the skin, usually in the neck. The temperatures are taken at intervals of several hours after the injection and if a higher temperature is noted, presence is unchanged, the animal usually is classed as sound. However, certain animals must be held on suspicion if in the judgment of the veterinarian, it is advisable to do so.

In case a cow reacts, or shows she has tuberculosis, she is appraised by representatives of the farmer and state veterinary department, after which a state permit to ship the animal is granted. She is then slaughtered under federal inspection. The amount received for the carcass is supplemented by state and federal funds, to lessen the farmers' loss.

In case no reactors are found, the herd is tested again within six months to a year and if no reactors are found on the second time, an accredited herd certificate is issued the owner.

FEW INDIANA COLLEGES MAY LOSE THEIR CREDIT

Action by Recent Legislature Will Force Many Colleges Out Class of Credited Schools

POSSIBLY 5 TO BE AFFECTED

Indianapolis, Ind. Mar. 14.—Action by the recent legislature will force many of the Indiana colleges out of the class of credited schools members of the state board of education declared today.

At a meeting here L. N. Hines, state superintendent of the public instruction, was instructed to sign contracts for school books and to fix bonds for text book companies to which the contracts were awarded.

The accreditation of some Indiana schools will be lost, it was said, by an amendment to a school bill passed by the assembly which recognized the standards of colleges which now exist and which continue to exist until challenged by legislative enactment. The amendment was made on motion of Senator Brown, of Hebron and would prevent the schools from using any discretion and makes the standards iron-clad.

It was said after the meeting that possibly five colleges would be affected because they could not make the standard which required an endowment of \$500,000 for an accredited school. Those schools coming within this class are Valparaiso, Oakland, Goshen, Manchester and Earlham.

The text book controversy which commenced in the state senate and brought forth a senate investigation, died quietly. L. B. Benefet, of Evansville, a board member, moved that the contracts signed by Hines and that Hines fix the bonds. There was not a dissenting vote.

KNECHT'S O.P.C.H.

Plan Ascent of Highest Peak In The World

London, Mar. 14.—Mount Everest, the highest peak in the world, is to be climbed.

The expedition will probably start next year. No white man has been within forty or fifty miles of Mount Everest, which is "29,002 feet above sea level," according to the geography books of school-time days.

The conquest of this inaccessible peak will be undertaken by the Royal Geographical Society and the Alpine Club and a committee representing both societies is now meeting in London to plan details.

Sir Francis Younghusband, president of the Royal Geographical society, when announcing this expedition, said that the project would take two years at the least. The first year would be spent in discovering the "geography" of Everest, exploring the approaches to the mountain, and in collecting all possible information regarding the surrounding mountains before it was attempted to scale the summit of the peak.

In past years there have been political as well as natural obstacles in the way of such an expedition. But now the consent of the Indian Government has been obtained, and, more important, the Dalai Llama has given sanction to the exploration.

Dr. A. M. Kellas, Mr. Harold Raeburn, Major Rawling and General Bruce are four of the probable starters. The explorers hope to interest the Indian government in the scheme, so that aeroplanes will be placed at their disposal for reconnaissance purposes. Whether it is possible for aeroplanes to land and rise on those snowy heights will have to be determined by experts. It is hoped that they will be able to drop supplies.

It is not yet known whether the climbers will be able to stand the rarified atmosphere at such a great altitude long enough to reach the summit. The highest point in the Himalayan range ever reached was when the Duke of Abruzzi fitted out a model expedition and climbed to a height of 24,600 feet. He had to descend, owing to bad weather and snow.

Many dangers beset the path of the explorers, including blizzards, rocky precipices and terrible avalanches. In 1905 a party headed by Dr. Longstaff attempted the Curia Mandhata and reached as high as 24,000 feet, when they were carried down in a great avalanche for 1,500 feet, successfully jumping two small cliffs in their descent.

TO PROTECT SOLDIERS UNDER CIVIL SERVICE

American Legion Also Expects to Increase The Number of Veterans in Government Service

85,000 MEN ARE SEEKING JOBS

Indianapolis, Ind., Mar. 14.—With the incoming of a new administration, the American Legion is keenly alive to the duty of protecting all ex-service men and women now in the government employ under the civil service and also to the possibility of increasing the number of veterans in government service, according to John Thomas Taylor, vice chairman of the National Legislature Committee of the Legion.

At present, only about one-twentieth of those in the civil service, 90,000 out of 420,000 are veterans. This condition exists, Mr. Taylor points out, in spite of the fact that 85,000 ex-service persons have sought government jobs; 70,000 of them passed the examinations and measured up to all requirements and 46,000 have been recommended or certified for appointment by the civil service.

The law requires the civil service commission to submit the names of three eligibles for each appointment to be made, including the ex-service person making the highest mark, and leaves the appointment of one of the three to the head of the executive department. The fact that in 26,000 out of 46,000 cases, the department heads have preferred civilians to veterans is not at all satisfactory to the Legion, according to Mr. Taylor, who adds that the National Legislative Committee intends to see that a better showing is made in the future.

TO FORM BELT LEAGUE

Linton, Ind., Mar. 12.—Plans for forming the Coal Belt Baseball League were going forward here today. The towns of Linton, Shellburn, Sullivan, Coalmont, Dugger, Bicknell, Cass and Flat Rock, Ill., would each have teams in the league.

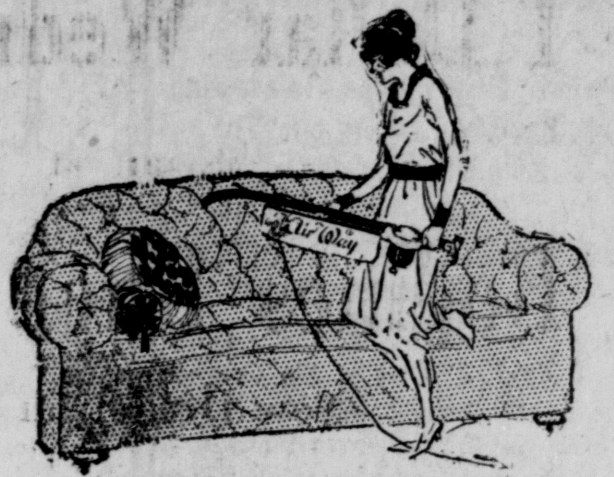

Ninety thousand quart tickets for Grade A milk have been provided for tubercular children in Los Angeles, through The Salvation Army during the past year.

Picks Up A Silver Quarter!

The supreme test for a vacuum cleaner is the powerful suction. It is certain that a machine which picks up pennies and quarters, takes dirt in the same manner. An all suction machine without a brush, and with five exclusive patents is found only in the "Air-Way," which can be purchased on easy payments, using it at the same time, and eliminating all future house cleaning. A demonstration will not obligate you. Telephone today.

ACCUSED OF STEALING HIS GIRL'S UMBRELLA

Youthful Swain Wasn't Prepared For Rainy Night and Girl Charges Petit Larceny

LEFT HER IN THE RAIN

(By United Press)

Evansville, Ind., Mar. 14.—Harry Hooper, 17, went a-courting without being prepared for a rainy night—and it started to rain before he left the lady fair's home.

So Miss Nola Dexter, the girl in the case, volunteered to protect him under her umbrella as far as the car line. It was a pretty umbrella of green silk and it cost \$13.25.

But when Young Hooper got to the car line he took the umbrella and ran away with it, Miss Dexter told the judge in her suit of petit larceny filed against the youth.

"He promised my mother he would pay for my umbrella, but he hasn't," the girl said. "He left me in the rain."

"It was raining hard," Hooper said. "I just wanted to borrow it. She had only a square to go home. When I started off, she ran home and told her mother. It looked like a big crowd was going to gather around her home so I left the umbrella on the corner."

"I told her I could pay so much down, but I couldn't pay it all at one time. I will pay it though."

Judge Ireland continued the case until March 21, and ordered Hooper to pay the \$13.25 in the meantime.

WILL INSIST UPON AMERICAN RIGHTS

Policy of Harding Administration Will be to Take This Position in Foreign Affairs

YAP MANDATE IS CITED

(By United Press)

Washington, Mar. 14.—Definite assurances that the Harding administration will insist upon American rights as growing out of the war and peace, were given out in high official quarters today.

This was the first authoritative statement on the policy of the Harding administration touching on foreign affairs. It came from the highest possible source. The policy will be applied to all questions in which the United States now has a voice and all other questions which it is believed American interests will be affected. Specific questions in which the new administration will maintain this policy will be:

1.—The Mesopotamian oil question in which the United States is insisting on equal rights.

The controversy with Japan over the island of Yap, in which this country opposes the Jap mandate.

The negotiations for the disposition of the former German cables which has been virtually deadlocked in Washington.

It was also stated that the United States will be careful in dealing with the allies, not to be put in the position of sympathizing with Germany.

WALK FOR BEAUTY

Houston, Tex., Mar. 14.—Ladies, would you be beautiful?

Here's how, according to Dan O'Leary, champion walker of the world, who's promoting walking in South Texas.

"I can make every woman beautiful—and it won't cost her a cent", said O'Leary. "It's simple, too. Just walk. A ten mile hike each day will bring up the standard of beauty a hundred percent—and that's going some in these days." O'Leary at 80, can walk 100 miles in 22 hours.

REVIVAL AT CHURCH OF GOD DRAWS CROWD

Evangelist Ford Gives Interesting
Talk Sunday Evening on "The
Kingdom of God"

SOME SCRIPTURE IS CITED

Large crowds attended the revival at the Church of God at the Corner of Ninth and Oliver streets yesterday. Evangelist Ford gave an interesting talk last evening on "The Kingdom of God."

He pointed out that the Kingdom of God is not meat and drink but righteous peace and joy in the Holy Ghost. He stated that the answer to the question, "Who is going to take and accept the Kingdom forever?" is found in Daniel 7th, 18th verse, and "How we can get into the Kingdom that is going to stand forever, by repenting and believing the gospel?" is found in Luke 17th chapter and 21st verse. The kind of charities that are not in the Kingdom are found in 1st Cor., 9, 10, 11 verses. He closed his talk by saying that the people should have an interest in living so that they could present this kingdom that is going to stand forever.

Services will be held each evening at 7:30 o'clock and the public is invited.

PARDON BOARD WILL TAKE UP 130 CASES

Convenes Today in Week's Session
To Take up 71 New Petitions
and 50 Postponed Ones

SIX OTHERS ARE REOPENED

(By United Press)

Indianapolis, Ind., Mar. 14.—One hundred and thirty cases were scheduled to be considered by the state board of pardons convening in a week's session here today. The list includes seventy one new cases, six cases to be reopened, fourteen cases that were continued from the February session and thirty-six from the December session.

Among the cases which will receive consideration are: Otta M. Pursiful, Clinton county; Thomas Povrzenie, Lake county; Charles L. Rogers, Vigo county; Martin Uffin, Vigo county; Walter Flittner, Vanderburgh county; Berry Ross, Allen county; George A. Sutton, Putnam county; Edrie Smeltzer, Delaware county; William Walker, Gibson county; Elbert R. Epps, Fountain county; Jesse McNett, Fountain county; George Brewster, Gibson county; Clem Butts, Delaware county; Charles Harvey, Gibson county; Albert Willcutt, Vigo county; William Pickett, Vanderburgh; Paul Wallace, Vigo county; William Lewis, Vermillion county; George Fears, Vigo county; K. E. Ziss, Vanderburgh county; Nick Harackas, Putnam county; Roy Moek, Allen county; Forest Ragen, Lake county; Raymond C. Hackney, Allen county; A. Armstrong, Henry county; John Visack, Lake county; Lancelot C. Francis, Fountain county; Clint Redmond, Vanderburgh county; Eugene Lewis, Vigo county and Glen O. Huff, Delaware county.

The case of Anthony Miller, Delaware county will be reopened by the board. Miller is serving a life term for murder.

TO DISCUSS HEALTH TOPICS

Tuberculosis Division of State Board
of Health Coming

The tuberculosis division of the Indiana State Board of Health will be in Rushville tomorrow afternoon and evening to interest and instruct in health problems. Dr. H. W. McKane, director of the division, is a lecturer of splendid ability; Miss Elsie McKane is a nurse and child welfare worker, also a contralto singer of excellent ability; O. T. Law is manager of the entertainment features of the company, presenting moving pictures and slides which tell an interesting story. In the afternoon the company will give talks to the school children and at night will give a free illustration lecture and entertainment at the Graham Annex Auditorium at 7:30 o'clock.

CARD OF THANKS

We wish to express our heartfelt thanks to our friends and neighbors for the many acts of kindness throughout the illness and death of our dear husband and father, William J. Higgs. Also we thank the Rev. Tacoma for his words of consolation, members of the Odd Fellows and Rebekah lodges and others for the beautiful flowers and undertaker Fred A. Caldwell for his assistance. WIFE, SON and DAUGHTER 111

CARD OF THANKS

We wish to extend our heartfelt thanks and appreciation to our friends and neighbors for their kindness throughout the sickness and death of our beloved son, Coleman Newman. Also for all the beautiful floral offerings, for Rev. Kunkel and Captain Sparks' words of consolation; to Brother Wyatt and Son for their kind assistance, to Dr. Paxton for his faithful attention. Also want to thank everyone who furnished automobiles. MOTHER, FATHER, BROTHER, 111 SISTERS and GRANDFATHER.

NOTICE OF FINAL SETTLEMENT OF ESTATE

Notice is hereby given to the creditors, heirs and legatees of Thomas A. Ross, deceased, to appear in the Rush Circuit Court, held at Rushville, Indiana, on the 21st day of March, 1921, and show cause, if any, why Final Settlement Accounts with the estate of said decedent should not be approved; and said heirs are notified to then and there make proof of heirship and receive their distributive shares. Witness, the Clerk of said Court, this 26th day of February, 1921. LOREN MARTIN, Clerk Rush Circuit Court.

ALLIES MUST PAY GREECE'S BILL

King Constantine Will Not go to Smyrna and Greece Will Abandon War Unless Allies Do This

NOW HAS "DIPLOMATIC COLD"

Pointed Out That Greece Today Cannot Even Pay The Interest On Her Former Loans

Athens. (By Mail to the United Press.) King Constantine will not go to Smyrna and Greece will abandon the war against Mustafa Kemal and the Turks—unless the allies foot the bill.

Despite the declarations and reports to the contrary by the King himself, the above deduction is the viewpoint of conservative Greek statesmen and entente diplomats in Athens.

King Constantine's spread-eagle promises of leading his people to Constantinople has been all bluff, it is now admitted.

At the present time King Constantine has a "diplomatic cold." At the same time, the provincial propaganda is working. Almost daily the government papers print petitions from the Macedonian, Thracian and Peloponnesian peasantry entreating the King not to imperil his life by "going to Smyrna." The peasants loyally point out that His Majesty's life belongs to Greece, not to himself.

From the Royal Palace emanates the information that His Majesty is not at all displeased over the solicitude of his subjects. Smyrna at best is a cold, barren, desolate place in winter.

The chief fear in Royalist circles, however, is that the Venizelists will make capital out of any failure to carry out pre-election pledges. In this event, it is planned to have the King pay a two or three day visit to the front. In no case will he assume personal command of the troops.

As to Greece's abandoning the war against Turkey, it is pointed out that Greece today cannot even pay the interest on her former loans. For more than the past quarter of a century Greece has continually borrowed money. Virtually none of the principal has been paid.

The Greek people are either very wealthy or very poor. Thus far no means of extorting taxes from the impoverished peasants has been devised, and no government has been strong enough to extract any important amount in internal loans from the rich Greeks.

The Venizelos government secured about a million pounds by threats of "confiscation and mobilization of wealth by the state." The final result was the transference of private wealth to Paris and London by the capitalists and the enforced migration of Venizelos and his cohorts to Nice.

King Constantine and the present government wishes to stay. Obviously they will not attempt any drastic measures. The only recourse is to bolster up the national credit and get what is available from England, France or the United States.

JAPAN TACKLES POOR OLD JOHN BARLEYCORN

Modern True Women's Association Has Decided to Take Steps to Have Drinking Reduced

WILL PRESENT A PETITION

(By United Press)
Tokyo. (By Mail to the United States).—John Barleycorn, or whatever may be the Japanese equivalent of this gentleman, is about to be tackled by the fair ladies of Nippon. The Modern True Women's Association, an organization of Japanese women, has decided to take steps to have drinking of sake and other intoxicants reduced. They have decided to approach their goal by gradual steps, and the first petition which they are about to present to the Diet, calls for temperance and not prohibition, which would not have the slightest chance of success at present. The petition contains the following provisions:

Intoxicants should not be sold except between 4 p. m. and 9 a. m.

Intoxicants should not be sold to minors.

More than three go (a small measure) must not be sold to one person at one time.

The sale of alcohol should be prohibited in parliamentary buildings.

The sale of intoxicants should be prohibited on election days.

CAPITALS SHOW GREAT CONTRASTS

Belfast and Dublin Joint Capitals of Ireland are as Alien as Two Cities on Same Island

DUBLIN PRETTY, BELFAST BUSY

Belfast's Experience of the Rebellion has Been Superficial; Dublin's Has Been Real

By CHAS. McCANN
(U. P. Staff Correspondent)

Dublin (By Mail)—Belfast and Dublin, joint capitals of Ireland under the forthcoming rule plan, seems to a visiting stranger who sees the streets inter changeable. Really they are as alien as two cities on the same island and whose people wear the same sort of clothes could be. Dublin is home-like and pretty Belfast is busy. Belfast is trying to start a home-rule bill two-thirds of its people never wanted. Dublin with the rest of the 80 or 85 percent of Ireland's population to obtain home-rule for centuries, greets talk of the present bill with what is usually known as a "horse laugh".

In Belfast, the fighting is done among the Orangemen and Sinn Feiners who comprise the population. In Dublin the population fights the government. Dublin has its curfew at 10 o'clock, and Belfast goes to bed a half-hour later since the serious riots of last summer, when the curfew was imposed.

Soldiers walk about the streets of both cities unarmed and unhurt. The Royal Irish Constabulary act as traffic policemen and patrolmen in Belfast. In Dublin they never appear on the streets except in lorries, armed with rifles and pistols. In Belfast, as well as Dublin, armored cars or lorryloads full of soldiers or police, their rifles levelled outward at the crowd, fingers on triggers, are seen frequently though more frequently in Dublin. But Belfast does not see usually the "Black and Tans", as the reprisal men have become known. And in Belfast it is not of the day's program for the ordinary citizen to be searched for arms on the street.

Belfast's experience of the rebel-

lion has been to a great extent superficial. Dublin's has been real. From a distance the huge stone pillared front of the postoffice looks normal. On nearer approach it is seen that the windows are boarded; and then, that the building is a shell, roofless and with most of its sides and rear leveled nearly to the street. It is one of a few landmarks of the 1916 rebellion, when Sackville street was shelled and several city blocks destroyed.

The greatest apparent difference is that observed when lorries full of soldiers or police are about. They are unnoticed in Belfast; but in Dublin there is always the possibility that firing of some sort will follow and the crowds are both watchful and wary.

INFANT CHILD DIES

June Bebout, infant daughter of Mr. and Mrs. Verl Bebout, died early this morning at the family home, Willow and Ninth streets. The baby was born late yesterday afternoon. Burial was made this afternoon in East Hill cemetery.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel. No gripping results from these pleasant little tablets. They cause the liver and bowels to act normally. They never force them to unnatural action. Dr. Edwards' Olive Tablets are a soothing, healing, vegetable compound mixed with olive oil.

If you have a bad taste, bad breath, feel dull, tired, are constipated or bilious, you'll find quick and sure results from Dr. Edwards' Little Olive Tablets at bedtime.

EVERY CAR OWNER

Wants to know how many miles he can make on a gallon of gas. It isn't the quality of the gas so much as it is the condition of your car. A properly adjusted car is the only way to produce satisfactory mileage.
Our business is to keep your car in a smooth running condition so that it will produce the proper amount of mileage per gallon. Only thorough knowledge of cars and expert workmanship can do this.

WE ARE PREPARED TO SERVE YOUR CAR

Will Cement Be Hard To Get This Year?

It will probably be more abundant, but it is anticipated the demand will exceed the abundance.

WHY?

Last year the shortage of coal, switchmen's strike, shortage of cars and other causes brought about a great shortage of cement. Millions of dollars of work was held up. Miles of cement road work involving thousands of barrels of cement was stopped and postponed until this year. That work will go forward this year, and coupled with the usual demand for cement this year it will tax the cement mills to supply the demand.

If you bought cement last year you know how hard it was to get, and you probably did not get it when you wanted it. We are anticipating something of the same kind this year; but we are going to try to be better prepared and are now putting in all the cement our warehouse will hold and placing orders for future delivery.

It is our honest belief that you who anticipate your wants and buy your cement early will be doing well.
